

-
4. Do not attach large, heavy items to the handlebars, fork, or fender. Unstable handling or slow steering response may result.
 5. Do not exceed the maximum weight capacity of Honda accessories.
 - Travel trunk: 9 kg (20 lbs)
 - Saddlebags: 9 kg (20 lbs) each side
 - Fairing pockets: 2 kg (4.5 lbs) each side
 6. The Honda fairing, travel trunk and saddlebags are designed for this motorcycle only. Do not install them on any other motorcycle.
 7. Do not store articles between fairing and motorcycle. They may interfere with steering causing loss of control.

Accessories

Genuine Honda accessories have been specifically designed for and tested on this motorcycle. Because the factory cannot test all other accessories, you are personally responsible for proper selection, installation, and use of non-Honda accessories. Always follow the guidelines under Loading, and these:

1. Carefully inspect the accessory to make sure it does not obscure any lights, reduce ground clearance and banking angle, or limit suspension travel, steering travel or control operation.
2. Large fork-mounted fairings or windshields, or poorly designed or improperly mounted fairings can produce aerodynamic forces that cause unstable handling. Do not install fairings that decrease cooling air flow to the engine.
