

## TCS ON/OFF SWITCH

This switch lets you turn TCS ON or OFF. When the TCS ON/OFF switch is pushed with the ignition turned ON, the TCS turns OFF and the TCS OFF indicator in the instrument panel turns ON. When the switch is pushed again, the TCS turns ON and the TCS OFF indicator turns OFF.

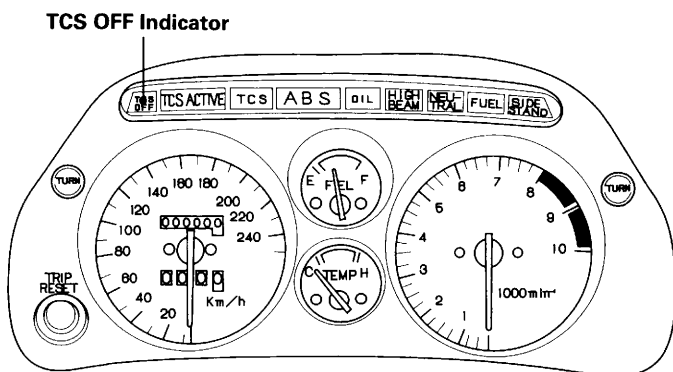

The TCS repeats ON and OFF alternately when the switch is pushed.

### ⚠ WARNING

- **Do not operate the switch while riding the motorcycle.**  
**Operating the motorcycle with one or both hands away from the handlebar/controls may result in a loss of vehicle control.**
