

Instruments (Continued)

QUICK SHIFTER

CBR1000S1

"INITIALIZE" and "EQUIPMENT" are displayed but not selectable.

Select the  (return) on the menu screen, and then the display returns to the "QUICKSHIFTER" menu on the "SERVICE" menu screen.

DTC

You can check for a current problem with the PGM-FI system.

CBR1000S1

You can check for a current problem with the ÖHLINS Smart EC system.

If your motorcycle has a problem, the DTC index is displayed. In this case, the pop-up information appears in the ordinary display.
