

### Periodic Checks

You should also perform other periodic maintenance checks at least once a month regardless of how often you ride, or more often if you ride frequently.

Also, check the odometer reading against the Maintenance Schedule and perform all maintenance that is due. ➤ [P. 42](#)

Tires and wheels	Check the air pressure (➤ <a href="#">P. 55</a> ), examine tread for wear and damage (➤ <a href="#">P. 55</a> ), and check the wheels for damage.
Fluid levels	Check the engine oil level (➤ <a href="#">P. 64</a> ), engine coolant level (➤ <a href="#">P. 69</a> ), and brake fluid level (➤ <a href="#">P. 71</a> ).
Lights	Check that the headlight, position light, brake light, taillight, turn signals and license plate light are working properly.
Controls	Check the freeplay of the clutch lever (➤ <a href="#">P. 79</a> ), and throttle grip (➤ <a href="#">P. 82</a> ).
Drive chain	Check the slack (➤ <a href="#">P. 75</a> ), adjust the slack (➤ <a href="#">P. 76</a> ), and lubricate (➤ <a href="#">P. 53</a> ) as needed.
Fuses	Check that you have a full supply of spare fuses.
Nuts & bolts	Check the major nuts and bolts, and tighten as needed.
